# Our Advantages

**3DNews.ru** is a leading independent IT resource in RuNet, created for everyone who is immersed in technology. We have been working since 1997 and know what is important for our readers.

## What makes us unique

- We publish only relevant and objective information about the IT market.
- Our reviews and tests are honest and unbiased expert opinions.
- We follow all trends: from processors and smartphones to cloud services and artificial intelligence.

## Every day on 3DNews.ru

- 70 news stories about the most important events in the world of technology.
- 2 in-depth reviews of new devices and solutions.
- Fresh videos, tests, interviews and analytics.

## Why people trust us

Our site is read by millions of IT enthusiasts, professionals and companies. We are open: all traffic data can be checked on LiveInternet.ru.

## Who creates 3DNews.ru

Our team consists of 70+ IT journalists from Russia and other countries. We work 24/7 to keep our readers up to date with technological innovations.

# Our Website

**3DNews.ru is an IT platform that brings together the latest news, detailed reviews and independent testing.**

We follow the most current trends in the world of technology and create quality content for enthusiasts, professionals and businesses. We are constantly developing the site, adding new topics and formats so that our readers are the first to know about the future of IT.

## TOPICS

**We cover everything that is important in the IT world:**

- **Processors, video cards, storage devices** – hardware for work, games and creativity.
- **Smartphones and tablets** – mobile technologies and new trends.
- **Networks and communications** – routers, 5G, cloud services.
- **Gaming industry** – PC gaming, consoles, VR and everything related to games.
- **Smart things** – consumer electronics, gadgets and devices with AI functions.
- **Artificial intelligence** – neural network technologies, machine learning, automation and their impact on our lives.
- **ServerNews.ru** – our specialized project dedicated to servers, corporate solutions and professional IT equipment.

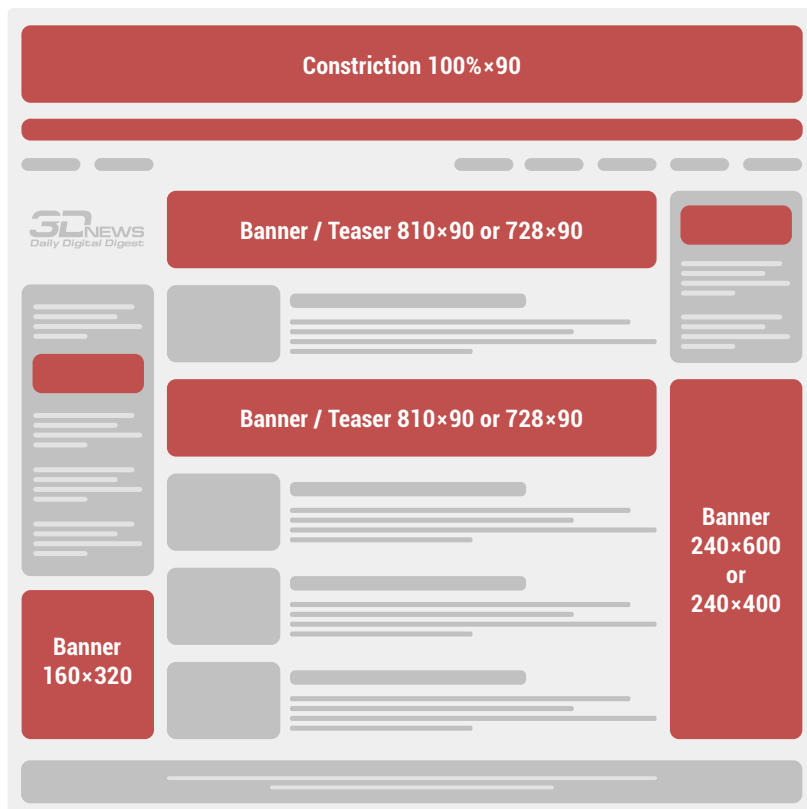

## CONTENT FORMATS

**We create materials in different formats to make the information convenient and accessible:**

- **News** – prompt publications about key events.
- **Reviews and tests** – independent assessments of equipment, software and IT solutions.
- **Video reviews and digests** – all the most important things in a convenient video format.
- **Exhibition reports** – live broadcasts and exclusive materials from world events.
- **Interviews** – opinions of leading experts and industry insiders.
- **Analytics** – detailed analysis of technologies, their features and applications.

## Our Special Projects

# Promo-Page

On a separate page [www.3DNews.ru/xxx](http://www.3DNews.ru/xxx) we can create any project up to a quite complex: in fact it's a mini-site where you can announce a new product release or an advertising action as well as a review publication, article publication or video review at [3DNews.ru](http://3DNews.ru).

Access to promo-page is provided by a special «button» - banner placed on all PC version pages of [3DNews.ru](http://3DNews.ru) during the whole running period of the project (~2 million impressions of the banner per month), and also on the mobile version of the site (~7 million impressions of the banner per month).

*For examples of non-standard special projects please click this link:*
